X1		the parts cannot be utilized. This military equipment consists mainly of tank treads and turrets produced in Silesia. the defective military equipment is the result of organized production sabotage.
X1 5X1 5X1	3.	The Polish Army will have independent (samodzielny) corps: infantry corps, armored corps and air force corps. There are some indications that one of each of the aforementioned independent corps will be stationed along the coast from the Polish-Russian frontier to Slupsk (Stolp). the headquarters of one of these independent motorized infantry corps is located in Bydgoszcz on Ulica Pomorska.
	4.	Very intensive training has been taking place in the regiments prior to their departure for military camps. Some parts of the regiments have already departed for these camps. There are about 20 various regiments located in the province of Olsztyn (Allenstein), and some of the areas in the province are strictly military since the civilian population has been evacuated.
X1		l. <u>Comment</u> : The cadre units are composed of some commissioned and non-commissioned officers, but do not have any soldiers or troops.
5X1 5X1		2. Comment: the tank regiment at Braniewo was previously stationed in western Poland. It was moved to Braniewo in May and June 1951. the unit was equipped with T-34 tanks and also some JS tanks.
